

# TRANSPORTATION TECHNICAL ASSISTANCE PROGRAM

East Central Wisconsin Regional Planning Commission

## ECWRPC Transportation Technical Assistance Application

The East Central Wisconsin Regional Planning Commission (ECWRPC) knows that communities have identified transportation issues but may not know what their next step should be. ECWRPC's new **Transportation Technical Assistance Program** aims to help communities identify and plan for these next steps to make their roadways safer, more accessible, and more comfortable for everybody.

The Transportation Technical Assistance Program can help communities with planning tasks, such as problem identification, data collection, stakeholder engagement, or recommendations development for transportation projects. Examples of projects could include, but are not limited to, the following:

- Safe Routes to School Infrastructure Enhancement Planning
- Transportation Equity Analysis
- Safety Audit
- Intersection Improvement Planning
- Corridor Mobility Plan
- ADA Transit Access & Sidewalk Gap Analysis
- Transit Stop Enhancement Planning
- Pedestrian Safety Improvement Planning

## Program Goals

The Transportation Technical Assistance Program is looking to provide transportation planning services to help communities improve the following:

- **Safety** - Increased safety means reducing traffic crashes for all modes; reducing conflict points; and creating safe transportation for all ages, abilities, and demographic groups.
- **Mobility** - Increased mobility means giving roadway users the ability to move together and efficiently, no matter what mode - foot, bike, transit, or vehicle – they choose to use.
- **Preservation** - Preservation includes creating and maintaining roadways that complement existing and future land uses, while maintaining high-functioning routes.
- **Equity** - Equity on our roadways means that roadways are designed and operated fairly for all users – regardless of age, disability, income, race or ethnicity, or language spoken. Historically, transportation networks and systems were not created equitably, and ECWRPC seeks to right the historic wrongs.

## Who Can Apply

Technical assistance is available to local governments (City, Village, Town, or County), transit agencies, and schools within the Appleton (Fox Cities) Transportation Management Area or Oshkosh Metropolitan Transportation Planning Organization Area.

## How to Apply, Timeline, and Informational Webinar

Applications may be submitted anytime between March 21 and April 15, 2022, by mailing the attached application to Matt Halada, ECWRPC Principal Transportation Planner, at [mhalada@ecwrpc.org](mailto:mhalada@ecwrpc.org).

Task	Start Date	End Date
Application Period Open	March 21, 2022	April 15, 2022
Applicants Notified	April 25, 2022	April 29, 2022
Technical Assistance Provided	May 2, 2022	October 28, 2022

There will be an informational webinar on **March 29<sup>th</sup> at 11 AM**. Register to join at <https://www.ecwrpc.org/>. A recording of the webinar will be posted on the website for those unable to attend.

Please contact Matt Halada at [mhalada@ecwrpc.org](mailto:mhalada@ecwrpc.org) with any questions or concerns.

## Applicant Information

Name:	
Title/Position:	
Email:	
Phone Number:	
Organization Name:	
Type of Organization:	Local government (select one): County      City      Village      Town  Transit agency  School district or school(s)
Applicable MPO (For more information <a href="#">CLICK HERE</a> )	Appleton (Fox Cities) TMA  Oshkosh Area MPO

## Application Questions

1. What is the location, corridor, or area in your community that needs technical assistance? Please provide or attach a map.

2. What kind of planning assistance would you like ECWRPC to provide? (100 words or less)

3. Please describe the transportation challenges in this area related to safety, mobility, preservation, and/or other local transportation goals (300 words or less):

4. Have you analyzed this location or issue before? What were the results or actions taken due to the findings of the analysis? If the location has not been analyzed, why not? (300 words or less)

5. Please describe if/how the technical assistance will help identify or address the needs of transportation-disadvantaged or underserved communities including but not limited to low-income families, older adults, People of Color, people with disabilities, children, zero car households, etc. (300 words or less):

6. Is there community support for the proposed project or would community engagement be needed as part of the project? If so, how would this community support or engagement lead to a greater chance for implementing any “next steps” that result from the technical assistance? (300 words or less)

**Please attach letters, endorsements, etc. from a department head, community group, elected officials, or others that show support for this application. Please limit to 2 letters, endorsements, etc.**

**Email your completed application to [mhalada@ecwrpc.org](mailto:mhalada@ecwrpc.org) by 5 PM on April 15, 2022. Please put “Technical Assistance Application” in the subject line.**
