FOND DU LAC AREA METROPOLITAN PLANNING ORGANIZATION (MPO) POLICY BOARD

VOTING MEMBERS

Allen Buechel, Chair – Fond du Lac County
Dyann Benson, Vice Chair – City of Fond du Lac
Joe Moore – City of Fond du Lac
Brian Kolstad – City of Fond du Lac
Jordan Skiff – City of Fond du Lac
Karyn Merkel – City of Fond du Lac
Tom Janke – Fond du Lac County
Chuck Hornung – Village of North Fond du Lac
James Pierquet – Town of Empire (representing all towns)
Matt Halada – WisDOT, Northeast Region

NON-VOTING MEMBERS

Sam Tobias (Alternate) – Fond du Lac County
Jill Michaelson (Alternate) – WisDOT, Northeast Region
James Kuehn – WisDOT, Central Office
Mary Forlenza – FHWA
Nick Leonard (Alternate) – Village of North Fond du Lac
Walt Raith – East Central Wisconsin Regional Planning Commission
The *Transportation Improvement Program for the Fond du Lac Urbanized Area* is a staged multi-year program of both capital and operating projects designed to implement the long-range element of the transportation plan and shorter-range transportation system management (TSM) element. The staged program covers a period of four years and includes projects recommended for implementation during the 2018-2021 program period. The specific annual element time frame recommended for funding approval differs for the FHWA Surface Transportation Program (STP) and the Federal Transit Administration Operating and Capital Assistance Programs. Funding recommendations for STP-Urban Projects from 2018 through 2021; for transit assistance programs, 2018 and 2019.

INTRODUCTION
INTRODUCTION

The Transportation Improvement Program (TIP) is an annually prepared program of transportation projects that will be utilizing federal funding assistance in their implementation. This TIP includes projects within the Fond du Lac Urbanized Area. It has been developed by the East Central Wisconsin Regional Planning Commission as the staff for the Metropolitan Planning Organization (MPO). The MPO works in cooperation and coordination with the Wisconsin Department of Transportation (WisDOT), which is responsible for preparing a State Transportation Improvement Program (STIP) programming federally-assisted transportation projects statewide. The federal funding assistance to be programmed is provided by the Fixing America’s Surface Transportation Act (FAST - ACT) administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA).

In preparing this report, East Central has worked with the WisDOT Northeast Region, transit operators, and local governmental jurisdictions to compile a list of projects from their capital improvement programs and budgets for the four-year period from 2018 to 2021. These lists of programmed and candidate projects were then reviewed for consistency with long range plans, prioritized, and recommended by transportation Technical Advisory Committees (TACs) for the urbanized area. TAC recommendations were in turn reviewed by the Policy Board for final action as the MPO recommending these projects to WisDOT for inclusion in the STIP.

REPORT FORMAT

The first section of the TIP includes a brief description of the transportation planning process and its relationship to the TIP. The second section outlines the process of developing the project list, the method employed for prioritizing projects, and the procedure followed for consideration and approval of the report. The final section contains the project list. The appendices include a variety of background information.

The Fond du Lac MPO Public Participation Plan (PPP) and Annual Listing of Obligated Projects can be viewed on the Fond du Lac MPO website.

http://www.ecwrpc.org/programs/fond-du-lac-mpo/

CERTIFICATIONS

In accordance with 23 CFR 450.334(a) East Central Wisconsin Regional Planning Commission hereby certifies that the metropolitan transportation planning process is addressing major issues facing the metropolitan planning area and is being conducted in accordance with all applicable requirements of:
(1) 23 U.S.C. 134 and 49 U.S.C. 5303, and this subpart;

(2) In non-attainment and maintenance areas, Sections 174 and 176 (c) and (d) of the Clean Air Act as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;

(3) Title VI of the Civil Rights Act of 1964, as amended (42 USC 2000d-1) and 49 CFR part 21;

(4) 49 USC 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;

(5) Section 1101(b) of the MAP-21 (Pub. L. 112-141) and 49 CFR Part 26 regarding the involvement of disadvantaged business enterprises in US DOT funded projects;

(6) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;

(8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;

(9) Section 324 of Title 23, U.S.C. regarding the prohibition of discrimination based on gender; and

In addition, the MPO certifies that the TIP contains only projects that are consistent with the metropolitan plans for the urbanized areas.

In addition, the Fond du Lac Metropolitan Planning Organization’s public participation and certification process satisfies the Fond du Lac Area Transit public participation requirements for the Program of Projects.
TRANSPORTATION IMPROVEMENT PROGRAM

FEDERAL PLANNING REQUIREMENTS

FAST Act, signed into law in December of 2015, and predecessor transportation legislation require that all urbanized areas have a comprehensive, cooperative, and continuing planning process in place to guide effective use of federal funding assistance. FAST Act planning requirements reemphasize the integral relationship of land use with transportation infrastructure, as well as the need to address all mobility from a multimodal perspective, as previously emphasized under MAP-21, TEA-21 and SAFETEA-LU. Additional areas of challenge under the FAST Act include:

- Improving mobility on America’s highways;
- Creating jobs and promoting economic growth;
- Accelerates project delivery and promotes innovation.

To carry out the comprehensive planning program, ISTEA, TEA-21, SAFETEA-LU, MAP-21, and the FAST Act have reconfirmed the role of a cooperative planning institution, the MPO, to guarantee that all aspects of the urbanized area will be represented in the plan's development and that planning will be conducted on a continuing basis. As the designated staff for the MPO for the Fond du Lac urbanized area, the East Central Wisconsin Regional Planning Commission is responsible for carrying out these transportation planning responsibilities.

Fond du Lac urbanized area is located in Fond du Lac County; includes all or parts of the five towns of Eden, Empire, Fond du Lac, Friendship and Taycheedah; the City of Fond du Lac; and the Villages of North Fond du Lac and Eden. The 2010 census figures show the population of the urbanized area to be 54,901.

THE TIP PROCESS

One of the objectives of SAFETEA-LU, MAP-21 and subsequently the FAST Act is to forge a stronger link between plan preparation and plan implementation. It seeks to accomplish this, in part, by broadening public involvement and elevating the importance and authority of the MPO in the TIP prioritization process.

The TIP is a staged multi-year program of both capital and operating projects designed to implement both the long-range element of the transportation plan and the shorter-range transportation system management (TSM) element. The TIP covers a period of four years with projects identified during this period as the minimum program. Projects for 2022 are considered future year projects (illustrative). The MPO and WisDOT agree that the first year of the TIP constitutes an agreed to list of projects for project selection purposes and that no further project selection action is required for WisDOT or the transit operator to proceed with federal fund
commitment. Although the TIP is updated annually, if WisDOT or the transit operators wish to proceed with projects not scheduled in the first year of the TIP, the MPO agrees that projects from the second, third or fourth year of the TIP can be advanced to proceed with federal funding commitment without further action by the MPO.

**TIP Amendments**

**No Amendment Required**

- **Schedule**
  - Changing the implementation schedule for projects within the first four years of the TIP. Provided that the change does not trigger redemonstration of fiscal restraint.

- **Scope**
  - Changes in scope (character of work or project limits) while remaining reasonably consistent with the approved project.

- **Funding**
  - Changing the source (fed, state, local); category (IM, NHS, STP, earmarks); or amount of funding for a project without changing the scope of work or schedule for the project or any other project within the first four years of the TIP.

**Minor Amendment (Processed through MPO committee structure and WisDOT, public involvement handled through the committee process.)**

- **Schedule**
  - Adding an exempt/preservation project to the first four years of the TIP, including advancing a project for implementation from an illustrative list (Table A-1) or from the out-year of the TIP.
  - Moving an exempt/preservation project out of the first four years of the TIP.

- **Scope**
  - Changing the scope (character of work or project limits) of an exempt/preservation project within the first four years of the TIP such that the current description is no longer reasonably accurate, or is a significant change from what was agreed on in the State Municipal Agreement (SMA).

- **Funding**
  - Change in project funding that impacts the funding for other projects within the first four years of the TIP forcing any exempt/preservation project out of the four-year window.

**Major Amendment (Public involvement opportunity and processed through MPO committee structure and WisDOT.)**

- **Schedule**
  - Adding a non-exempt/expansion project to the first four years of the TIP, including advancing a project for implementation from an illustrative list or from the out-year of the TIP.
  - Moving a non-exempt/expansion project out of the first four years of the TIP.
• Scope
  - Significantly changing the scope (character of work or project limits) of a non-exempt/expansion project within the first four years of the TIP such that current description is no longer reasonably accurate, or is a significant change from what was agreed on in the State Municipal Agreement (SMA).
  - Funding (Thresholds to be defined by the MPO in consultation with WisDOT and FHWA and subject to WisDOT approval.)
    - Adding or deleting any project that exceeds the lesser of:
      • 20% of the total federal funding programmed for the calendar year, or $1,000,000.

Even though a new TIP has been developed and approved by the MPO, WisDOT can continue to seek federal fund commitment for projects in the previous TIP until a new STIP has been jointly approved by FHWA and FTA. Highway and transit projects reflected in any of the first four years of the approved TIP may be advanced for federal fund commitment without requiring any amendment to the TIP. It is the intent of WisDOT and the MPO to advance only projects, including transit operating assistance, that are included in an approved TIP and STIP. WisDOT relies on the public involvement process conducted by the MPO in the development of their TIP to satisfy the Federal Transit Administration program and planning requirements, as established for the Section 5307 and 5309 programs.

TIP Project Solicitation and Public Involvement

Annually, each transit operator, municipality or county is requested to submit a list of proposed transportation projects covering the next four-year period for inclusion in the TIP. Notification was provided by direct letter, dated June 27, 2017, requesting candidate projects to be identified. On September 3, 2017, a legal notice was published in the Fond du Lac daily paper identifying a review and comment period from September 3 to October 2, 2017. The Technical Advisory Committee would meet September 13, 2017 to act on the draft project list for inclusion in the TIP and that the TIP would receive final consideration by the MPO at its October 4, 2017 Policy Board Meeting. Documentation of the TIP published public involvement notice is included in Appendix F. No public responses were received relative to any of the notices.

Project Review for Eligibility

Projects submitted must be included in a locally adopted Capital Improvements Program and are reviewed for consistency with transportation plan recommendations (LRTPs), availability of federal and state funds, and compliance with relevant state and federal regulations. All federally funded highway, transit, and other projects must be included in the TIP to compete for the receipt of federal funding assistance. “Regionally significant” projects scheduled for implementation with state and local funds must also be included for informational and coordinative purposes, except that all projects impacting highways functionally classified as principal arterials must be included in the TIP regardless of funding source.
Flexibility of Funding Sources

A hallmark of the (FAST Act) legislation, while retaining categorical programs, was the introduction of fairly wide latitude to flexibly use funds from one category for projects in other categories. The intent is to provide states and local areas with the ability to address priority needs in their jurisdictions. Flexible programs include:

Federal-Aid Highway Programs

</table>
Office of the Commissioner of Railroads  OCR
Transit  
Section 5307  
Formula Capital and Operating Assistance  Section 5307
Section 5310  
Elderly & Disabled  Section 5310

Of these categorical programs, the majority are programmed by WisDOT. The forum of the TIP will serve to provide comment from the MPO annually and should generate additional public exposure to influence the project prioritization by WisDOT. The Section 5307 Transit programs are developed directly by the transit operators in conformance with the Transit Development Programs, Americans with Disabilities Act (ADA) plans, and the long-range multimodal plan. The Section 5310 elderly and disabled paratransit capital projects are listed in the TIP as candidate projects only with later prioritization and funding determinations by WisDOT.

Prioritization of STP-Urban Projects

The only categorical program that the MPO prioritizes is the STP-Urban program in each of the urbanized areas. The four-year program, 2018-2021, itemized in the listing this year includes the 2018 through 2021 projects that were submitted by the local entities. In developing this 2018 TIP, one project was selected by the Policy Board for the 2021 and 2022 biennium.

The allocation of STP-Urban funds for 2021-2022 is approximately $2,312,330 in the Fond du Lac urbanized area.

STP-Urban Project Criteria

As part of the project approval process, federal metropolitan planning regulations require that all federally funded projects, as well as certain non-federally funded projects, be included in the Transportation Improvement Program. The regulations also intend that the TIP set priorities for project approval. Toward this end, a system for prioritizing the 2018-2022 project candidates, as part of the 2018 TIP, is being used that was developed in 2005, as the first TIP was being adopted for the Fond du Lac urbanized area. Below is the performance – based criteria used to evaluate and prioritize the project candidates. These performance measures assess plan consistency, preservation of the existing system, capacity needs, safety, multimodality, capital programming, and funding availability.

1. PLAN CONSISTENCY. This criterion establishes project legitimacy within the overall transportation network. It rates projects higher when they conform in scope and timing to appropriate comprehensive or modal transportation plan element (local comprehensive plans, arterial plans, transit development and other transit plans, bicycle/pedestrian plans, regional long range plan and related elements) and evidence good regional coordination.
Score  5  Direct Relationship
       3  Some Relationship
       0  No Relationship

2. **PRESERVES EXISTING SYSTEM.** This criterion emphasizes the goal of maximizing the efficiency of present infrastructure. A project is rated using only the most appropriate of the alternative rating categories. For instance, a project which adds lanes to an arterial could be rated by pavement condition, showing project timeliness, or as a new facility showing functional need.

**Highway applications.** Alternative ratings are available by project type based on pavement condition, new facilities, or traffic operations improvements.

a. **Pavement Condition.** For existing highways, an indicator of pavement surface condition is based on the *Pavement Surface Evaluation and Rating Manual* (PASER). Pavements with lower ratings have greater pavement distress and are scored higher.

   Score  5  Rating of 1-2 (in very poor condition, reconstruction necessary)
       5  Rating of 3-4 (significant aging, would benefit from an overlay)
       3  Rating of 5-6 (surface aging, sealcoat or overlay warranted)
       1  Rating of 7-8 (slight wearing, routine maintenance)
       0  Rating of 9-10 (no visible distress)

b. **New Facilities.** For new streets and highways, an evaluation is made of the criticality of the project to the overall functionality and efficiency of the existing network.

   Score  5  Very critical, needed to avoid lost opportunity relative to timing and cost of other programmed projects
       3  Beneficial to the overall performance of the system
       1  Some current need, more important to system performance in long term
       0  No relationship to system performance

c. **Traffic Operations Improvements.** Principally intersection channelization or signalization projects or improvements to corridor performance through access management.

   Score  5  Very critical, eliminates major hindrance to system performance and safety
       3  Beneficial to the overall performance of the system
       1  Some current need, more important to system performance in long term
       0  No relationship to system performance

**Non-highway applications.** An assumption is made that an increase in travel options improves the efficiency of the existing infrastructure. Special considerations will be discussed at the committee level in determining non-highway applications.
d. Freight Operations.

Score 5 A project that improves operations of the existing freight transportation system
3 Beneficial to the overall performance of the system
1 Some current need, more important to system performance in long term
0 No relationship to system performance

e. Transit Improvements.

Score 5 A project that provides, or is an integral factor in providing, a transit or paratransit option
3 A project that enhances a transit or paratransit option, thereby making a transit mode more attractive or paratransit needs, but does not impact the demand for SOV (single-occupant vehicle) travel
0 A project that inappropriately addresses transit or paratransit needs

f. Bicycle and Pedestrian Improvements. Projects can be categorized as either barrier crossing or corridor improvements and rated using the appropriate set of criteria.

i. Barrier Crossing Improvements. Provides facility over/under non-compatible transportation route or natural feature. (Scores of criteria a), b) and c) are averaged and rounded to the nearest integer.)

1. Spacing. (distance between facilities)

Score 5 2.01 miles or greater
4 1.51 to 2 miles
3 1.01 to 1.50 miles
2 0.76 to 1 mile
1 0.51 to 0.75 miles
0 0.5 miles or less

2. Level of Use. (origin/destination pairs)

Score 5 Residential to multimodal transfer locations
5 Residential to employment centers/schools/colleges
3 Residential to commercial/recreational
1 Residential to residential
0 Recreational to recreational
3. **User Safety.** (Is at-grade crossing possible?)

<table>
<thead>
<tr>
<th>Score</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>No potential for at-grade crossing</td>
</tr>
<tr>
<td>3</td>
<td>At-grade crossing possible; safety concerns remain</td>
</tr>
<tr>
<td>0</td>
<td>Safe at-grade crossing is possible</td>
</tr>
</tbody>
</table>

ii. **Corridor Improvements.** Provides a bicycle and pedestrian route on or along a transportation route or natural feature. (Scores of criteria a), b), and c) are averaged and rounded to the nearest integer.)

1. **Spacing.**

<table>
<thead>
<tr>
<th>Score</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>No alternative parallel route available</td>
</tr>
<tr>
<td>3</td>
<td>Adjacent parallel route would be better option</td>
</tr>
<tr>
<td>0</td>
<td>Adequate parallel route already exists</td>
</tr>
</tbody>
</table>

2. **Level of Use.** (origin/destination pairs)

<table>
<thead>
<tr>
<th>Score</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>Residential to multimodal transfer locations</td>
</tr>
<tr>
<td>5</td>
<td>Residential to employment centers/schools/colleges</td>
</tr>
<tr>
<td>3</td>
<td>Residential to commercial/recreational</td>
</tr>
<tr>
<td>1</td>
<td>Residential to residential</td>
</tr>
<tr>
<td>0</td>
<td>Recreational to recreational</td>
</tr>
</tbody>
</table>

3. **User Safety.**

<table>
<thead>
<tr>
<th>Score</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>Safety concerns addressed without compromising usefulness; promote increased use by all user groups</td>
</tr>
<tr>
<td>3</td>
<td>Safety measures may encourage increased use by some user groups, but discourage use by other user groups</td>
</tr>
<tr>
<td>0</td>
<td>Safety concerns cannot be adequately addressed</td>
</tr>
</tbody>
</table>

3. **CAPACITY.** This criterion is an indicator of corridor or intersection capacity problems. A higher existing volume to capacity ratio reflects greater capacity deficiency. Highway capacity standards developed by the Federal Highway Administration and WisDOT are used to determine the volume to capacity ratio. For new facilities the non-existent V/C ratio is replaced by the long-range plan projection year V/C ratio on the designed facility for rating purposes. Corridor based non-highway projects, those directly involving travel in a highway corridor, would be rated identically to highway projects using the highway V/C ratio. Non-corridor based projects would use the alternate rating based on the appropriateness of their location, magnitude and size, and projected usage.
Score 5  > 1.00
4  0.80 - 1.00
3  0.60 - 0.79
2  0.40 - 0.59
1  0.20 - 0.39
0  < .20

Alternate Rating (non-corridor based projects)

Score 5  Very critical, needed to avoid lost opportunity relative to timing and cost of other programmed projects
3  Beneficial to the overall performance of the system
1  Some current need, more important to system performance in long term
0  No relationship to system performance

4. SAFETY. This criterion emphasizes a goal of eliminating or minimizing corridor or intersection safety problems on the system. Alternative ratings are available by project type based on segment crash rates, high accident locations, and new facilities.

   a. Segment Crash Rates. WisDOT determines average crash rates per 100 million vehicle miles driven by facility type or functional classification. These crash rates can be determined for segments of urban streets.

      Score 5  > 280
             3  150-279
             0  < 149

   b. High Accident Locations. Intersections defined as any location with crashes ≥ 5 in any one year.

      Score 5  ≥ 5
             3  1 - 4
             0  0

   c. New Facilities. An assumption is made that an increase in travel options improves the efficiency and safety of the existing infrastructure by shifting trips traveled to safer facilities.

      Score 5  Safety concerns addressed without compromising usefulness; promote increased use by all user groups
             3  Safety measures may encourage increased use by some user groups, but discourage use by other user groups
             0  Safety concerns cannot be adequately addressed

5. MULTIMODAL. This criterion emphasizes projects that address needs of all appropriate modes (vehicular, transit, pedestrian, bicycle, freight) or TDM actions in the corridor.
Score 5 In a multimodal corridor, the project addresses the needs of all listed modes.
3 In a multimodal corridor, at least two modes are addressed, though not all listed modes are addressed.
1 In a multimodal corridor, only one mode, other than vehicular, is addressed.
0 Project is not in a multimodal corridor, or is in a multimodal corridor and only the vehicular mode is addressed.

6. **PLANNED PROGRAMMING.** An indicator of capital improvement planning, prioritizing, and scheduling by local communities. Projects in the TIP for three to five years which have progressed from out-year to annual element status are scored higher than projects appearing in the TIP for only one or two years. To be eligible for consideration in the TIP, projects must be included in a multi-year capital improvements program adopted by the sponsoring jurisdiction.

Score 5 Five Years or More
4 Four Years
3 Three Years
2 Two Years
1 One Year

**STP-Urban Project Selection Procedure**

The projects are selected for funding awards by rank order as determined by the prioritization process. The specific procedure followed is characterized as "Maximize Funding for Projects" and reads as follows:

Fund all projects in prioritized order at the 80 percent maximum federal funding level until all of the annual allocation is fully utilized. The final project will be funded at no less than the 50 percent minimum federal funding level.

If the remaining allocation is inadequate to fund the final project at 50 percent, then, in reverse prioritization order, the previously funded projects' funding will be reduced to no less than the 50 percent federal funding level until balance is achieved with the allocation.

If the final project cost is so large that funding it at the 50 percent minimum federal funding level cannot be achieved by reducing all prior projects to the 50 percent minimum federal funding level, then that project shall be passed over to the next project on the list.

**STP-Urban Projects Recommended for Funding**

2021-2022 allocations resulted in staff recommending funding for one project in the Fond du Lac Urbanized Area. This project was selected by action of the Policy Board for the Fond du Lac Urbanized Area on May 10, 2017:
**Fond du Lac Project: Available Funding Allocation of $2,312,330**

- The City of Fond du Lac’s Military Road / Hickory Street to Western Avenue.
  See Table 1 for project listing

A full listing of the candidate STP-Urban projects can be found in Appendix A, Table A-1. Also found in Appendix A is Table A-2: Evaluation and Ranking of Proposed STP-Urban Projects, 2021-2022. Table A-1 is a listing of projects that can be considered for possible future funding but are listed as illustrative, meaning that no funds are programmed out beyond the 4 year program for 2018 through 2021.

### 2018 TIP PROJECT LISTING

The project listing is presented in Table 1 (Fond du Lac). An explanation of the structure for Table 1 is located below.

#### Primary Jurisdiction

This column lists the primary implementing jurisdiction on the top line of each project listing. The second line contains the county within which the project is located. The fourth line is the TIP number, for example (443-18-001). The first number is the federal designated number for the Fond du Lac MPO, the second is the year it was added to the TIP, followed by the number of projects added in that year.

#### Project Description

The first line of the project description lists the highway segment (segment termini a/termini b), the intersection or interchange (highway/highway), or a non-highway project characterization. The second line characterizes the type of improvement to be undertaken. The third line lists the WisDOT project number, if known. The fourth line contains the federal acronym, if federal funds are being used, the length of the project in miles, and a categorization as a preservation (P) or expansion (E) project.

#### Estimated Cost

Estimated cost figures are always shown in thousands of dollars except for some transit and planning categories, which should be evident. They are subcategorized by federal, state, and local sources and totaled by project for each of the following time periods: 2018, 2019, 2020, and 2021.
### Table 1: Fond du Lac Urbanized Area - Programmed Projects Listing

2018 - 2021

**Funds are listed in Year of Expenditure $.$**

APPENDIX B

FEDERAL TRANSIT OPERATING & CAPITAL ASSISTANCE
Federal transit operating assistance is provided to the Fond du Lac urbanized area through an annual allocation of Federal Transit Administration (FTA) Section 5307. The Wisconsin Department of Transportation (WisDOT) distributes the Section 5307 funds to the urbanized areas with less than 200,000 population so that each recipient receives an equal percentage of federal funds as a share of transit system operating costs. In 1996 the Wisconsin Department of Transportation began distributing the state share of operating assistance similar to the federal share, with each transit system within a tier receiving an equal percentage of assistance. The combined total of state and federal transit operating subsidies equaled 55.1% in 2017. According to WisDOT the combined subsidy for 2018 will be 54.5%

Each year WisDOT pools the capital requests of the state’s transit systems and applies to the FTA for Section 5309 Capital discretionary grants. These annual grants have provided the much-needed support to meet capital needs. WisDOT continues to work on behalf of local transit systems to obtain the necessary funds to maintain and enhance transit's infrastructure. Fond du Lac Area Transit’s next fleet replacement project will begin in 2019.

Currently operating under the FAST ACT, the transportation bill has increased Transit's annual operating funding, but does not appear to be keeping pace with growth. Capital, especially the purchase of buses, is significantly behind its benchmark. Many Wisconsin transit systems are using buses that are significantly past their useful life.

For 2017 Fond du Lac Area Transit is aware of one applicant in the City of Fond du Lac urbanized area seeking grants under the federal and state Section 5310 program. Fond du Lac ADVOCAP seeks these grants each year. This is a competitive program offering funding assistance to private non-profit organizations that provide transportation services to elderly and disabled persons living in Wisconsin.

The following tables list the operating assistance and capital projects proposed for the 2018-2022 period.

**NOTES:**

1. These are the capital grants for these years - not necessarily audited expenses.
JUSTIFICATION FOR CAPITAL PROJECTS

In the Fond du Lac urbanized area, the capital projects for 2018-2022 include a small bus each year to be used in our ADA adjunct program, Handi-Van. We are also looking into the replacement of our bus wash, which has had various and many mechanical problems. This project will be approximately $200,000. Fond du Lac Area Transit is looking into Federal Capital Grant opportunities which would fund 80% of each project. Fond du Lac Area Transit will start our fleet replacement program in 2019, and hope to replace all seven fixed route buses over 3 years.

TRANSIT FINANCIAL CAPACITY

In compliance with regulations that require the TIP to be fiscally constrained, this section of the TIP assesses the transit systems' financial capacity to assure that the transit systems have the ability to continue to effectively utilize federally-assisted equipment and facilities. It is understood, however, that the major review of progress regarding financial capacity is made by the Federal Transit Administration during conduct of triennial reviews of these transit systems. A Triennial review was completed in 2016. No problems pertaining to financial capacity were identified during the triennial review.

The assessment of transit financial capacity in the Fond du Lac urbanized area is based on a trend analysis of recent historical data and projections of future condition. Seven indicators of financial condition reflected in the tables described below.

Fond du Lac Urbanized Area

Cost Trends

Fond du Lac Area Transit's fixed route operating expenses over the past three years have risen at an inflationary rate due primarily to employee wages and benefits. Health insurance costs have increased significantly and government is not immune.

Fond du Lac Area Transit's paratransit costs have fluctuated somewhat over the last several years. In addition to the ADA required complementary paratransit, Fond du Lac Area Transit coordinates a non-ADA service with Fond du Lac County. Projections for the next five years have Fond du Lac Area Transit continuing to coordinate the complementary paratransit services to provide a consistent level of service and to help control local share cost increases.

Cost-Efficiency and Effectiveness Trends

Fond du Lac Area Transit's fixed route costs per mile and per hour ratios have crept up slowly over the past several years. These service performance measures cannot be applied to Fond du Lac Area Transit's complementary paratransit service, which is provided on a contractual basis. This service is provided by Fond du Lac County Senior Services on an annual basis. For budget 2018, our intergovernmental agreement listed an annual cost of $249,000. The financial capacity table reflects operating statistics based on fixed route costs only. A recent study conducted by the Wisconsin Department of Transportation shows that bus and paratransit costs yield three times the savings to consumers and the Wisconsin economy.
Revenue Trends

In January 2012 the basic cash fare was increased to $1.50 and the senior/disabled fare became $.75. The student cash fare rose at the same time to $1.25. Adult tokens sell for 10/$11.00 and student tokens are 10/$11.00. The fare on Handi-Vans, Fond du Lac Area Transit’s complementary paratransit service was increased to $3.00 in January 2012. There is no intention of a fare increase for 2018. Transit Administration has discussed a possible rate increase starting in January 2019.

The ability of passenger revenues to support the system is limited. The revenue-to-cost ratio in recent years has been hovering between 13 and 15 percent and raising this percentage was a factor in increasing the fare in January 2012. Complicating the potential to increase the fare revenue portion of system costs is the fragility of ridership levels. Fond du Lac Area Transit strives to provide affordable transportation given that survey information indicates about 66% of the riders come from families with household income under $20,000.

The summer of 2014 saw the introduction of a student summer pass. The student summer pass replaced student monthly passes for the months of June, July and August. Fond du Lac has seen an increase of 300% in the pass usage by students in summer months.

Ridership Trends

Fond du Lac Area Transit’s fixed route ridership saw declines after the 2003 service decrease. Efforts are continually underway to make minor route adjustments to serve new traffic generators. Service increases were implemented in January 2017. Transit service was increase during peak hours and we added an additional half hour to our service day.

Paratransit Ridership

Paratransit Ridership (including ADA and non-ADA service) is projected to be approximately 34,000 for 2017. Previously our ADA paratransit service was contracted out to Fond du Lac County Senior Services. In July 2013, this relationship became an intergovernmental contract. The current contract runs through June 2018.

Level of Service Trends

Fond du Lac Area Transit has been operating relatively the same level of paratransit service since 2003 when Saturday fixed route service was discontinued.

Handi-Van, operated by Fond du Lac County Senior Services, provides door to door transportation to people with disabilities in Fond du Lac Area Transit’s service area to comply with the Americans with Disabilities Act and elderly transportation to residents of the City of Fond du Lac and the Village of North Fond du Lac.

Besides Handi-Van, Fond du Lac Area Transit continues to provide non-ADA transportation services in conjunction with Fond du Lac County Senior Services. The costs of this service pass through Fond du Lac Area Transit’s budget with Fond du Lac County and the Village of North Fond du Lac funding some of the local share.
Operating Assistance Trends

Since 1987 the State of Wisconsin has distributed the federal allocation of operating assistance giving each transit system an equal percentage share of operating assistance. Additionally the state has the authority to flex some grant funds between operating and capital purposes. The state uses this flexibility to maintain stable levels of operating assistance.

The state has historically been a strong partner in operating assistance, however funding levels have gradually declined over the past several years. In 2000 just over 40 percent of eligible expenses were funded with state operating assistance. The 2017 percentage is approximately 24%.

Fond du Lac Area Transit’s participating municipalities have seen modest local share increases in the recent past. The funding partnerships with Fond du Lac County and the Village of North Fond du Lac have helped to control these local share increases.

Likelihood of Trends Continuing

Fond du Lac Area Transit constantly strives to provide the most safe, reliable, cost efficient service possible while trying to meet the needs of those it serves. Funding changes at the state and federal level in terms of operating assistance always threaten the service level stability. The manner in which funding cutbacks would be dealt with is unknown at this time. One of the primary objectives of service changes recently implemented was to turn around the ridership decline and increase farebox revenue. Stable funding sources are critical to future planning efforts. The Wisconsin study referenced earlier showing a three to one return on investment for transit demonstrates added reasons to believe that a strong state, federal, and local role in transit will continue.

Intercity Bus Service

Green Bay – Madison Service

Lamers Bus, a private transportation company, has operated this service since July 2011. Intermediate stops include Columbus, Beaver Dam, Waupun, Fond du Lac, Oshkosh, and Appleton. The service connects with other intercity services such as Greyhound, Badger in Madison, Amtrak Empire Builder in Columbus, and other services provided by Lamers Bus.

Dear Transportation Provider:

Enclosed is a link to the draft TRANSPORTATION IMPROVEMENT PROGRAM FOR THE FOND DU LAC URBANIZED AREA - 2018. This material is being sent to you as a private transportation operator to give you an opportunity to review and comment on transit projects receiving federal funds.

The TIP is a staged, multi-year program of both capital and operating projects designed to implement transportation plans in the area. East Central, as the designated Metropolitan Planning Organization (MPO) for the Fond du Lac urbanized area, is responsible for its preparation. Annually, each transportation provider is requested to submit a list of proposed transit projects for inclusion. These projects are reviewed for consistency with transportation plan recommendations, availability of federal and state funds, and compliance with relevant state and federal regulations. All federally funded transit projects must be in the TIP in order to receive federal aid. Projects scheduled for implementation with state and local funds may also be included.

Appendix B is the section of the TIP that would be of most interest to you. If you have any comments or wish information about participating in any of the proposed transit projects, please contact me as soon as possible, preferably before September 30, 2017. The document can be viewed at the following website:

http://www.ecwrpc.org/programs/fond-du-lac-mpo/transportation-improvement-program/

Sincerely,

David J. Moesch
Associate Transportation Planner

September 5, 2017

Dear Transportation Stakeholder:

The East Central Wisconsin Regional Planning Commission (ECWRPC) is seeking comments on the Fond du Lac Metropolitan Planning Organization (MPO) Transportation Improvement Program for the Fond du Lac Urbanized Area – 2018.

The purpose of this letter is to promote cooperation and coordination to eliminate or minimize conflicts with other agencies’ plans that impact transportation. Fixing America’s Surface Transportation Act (FAST Act) requires that the ECWRPC consult with federal, state and local entities that are responsible for economic growth and development, environmental protection, airport operations, freight movement, land use management, natural resources, conservation, and historic preservation.

Enclosed is a link to the draft Transportation Improvement Program for the Fond du Lac Urbanized Area - 2018 (TIP). This document will be under a 30-day public review period from September 3, to October 2, 2017. Your comments are an important part of this planning process and will be incorporated into the document.

For further information on the Fond du Lac Transportation Improvement Program please visit the following website:
http://fdlmpo.org/planning-activities/transportation-improvement-program/

Please direct any comments or concerns to:

WisDOT Members Present
Matt Halada ................................................................................................................ WisDOT – NE Region
Sandy Carpenter ...................................................................................................... WisDOT – NE Region
Kris Canto (via conference call) ................................................................................... WisDOT – Central Office

Staff Members Present
Walt Raith.................................................................................................................. ECWRPC
Dave Moesch ............................................................................................................ ECWRPC
Nick Musson .............................................................................................................. ECWRPC
Kolin Erickson .......................................................................................................... ECWRPC

1. Introductions, Statement of compliance with Wis. Stats. Ch. 19, Subchapter V, Sec. 19.84 regarding
   Open Meetings

   Mr. Buechel welcomed the group and noted the meeting was properly posted and in compliance with
   open meeting requirements.

2. Public Comment

   No members of the public were present.

3. Discussion and action on Summary of Proceedings from the February 8, 2017 Policy Board and
   Technical Advisory Committee meeting

   Mr. Buechel stated the summary of proceedings from the February 8, 2017 meeting was enclosed in
   the meeting materials. Mr. Buechel asked the committee if they had any comments or questions
   regarding the summary of proceedings. Hearing no other comments, Mr. Buechel asked the
   committee for a motion to approve the summary of proceedings.

   Ms. Benson made a motion to approve the summary of proceedings, Mr. Halada seconded the
   motion and the motion passed unanimously.

4. Discussion and action on STP-Urban Project selection

   Mr. Moesch noted the committee needed to select a transportation project for the 2021-2022
   biennium as part of the Surface Transportation Program-Urban funds. Estimated available funds for
this program cycle are approximately $2.3 million for the Fond du Lac urbanized area. The committee deliberated over the four candidate projects listed in Table A-2 of the Transportation Improvement Program. For this funding cycle, the committee chose to allocate all of the $2.3 million to the Military Road reconstruction project; the project limits are from Hickory Street to Western Avenue at an estimated construction cost of $2.1 million.

Mr. Moesch also asked the committee to also consider more transportation projects to add to the candidate listing table for future funding cycles beyond 2022.

Mr. Buechel asked the committee if they had any comments or questions regarding the STP-Urban project selection for 2021-2022. Hearing none, Mr. Buechel asked the committee for a motion to approve the Military Road project for the STP-Urban cycle in 2021-2022. Mr. Janke made a motion to approve the Military Road project, Mr. Pierquet seconded the motion and the motion passed unanimously.

5. Discussion and action on Proposed Resolution 02-17: Amending the Transportation Improvement Program for the Fond du Lac Urbanized Area – 2017

Mr. Moesch stated an amendment was necessary for the Transportation Improvement Program to approve two WETAP (Wisconsin Employment Transportation Assistance Program) Projects administered through WisDOT. He noted the Section 5311 (rural areas) projects are for Advocap and Forward Service Corp. to subsidize capital and operating expenses. Typical projects these funds support include: operating, mobility management projects, vehicle repair and purchase loan programs. Federal 5311 funds amount to $98,923, with a local match of $489,729, for a total project cost of $842,339.

The second WETAP project is through the Section 5307 Program (Fond du Lac Urbanized Area) for Advocap to subsidize capital and operating expenses for similar projects as noted in the 5311 program. Federal 5307 funds amount to $100,587, with a local match of $292,571, for a total project cost of $493,838.

Mr. Moesch noted this amendment was included in the Transportation Improvement Program as both Advocap and Forward Service Corp provide services to low income individuals and families throughout Fond du Lac County.

Mr. Buechel asked the committee if they had any comments or questions regarding proposed Resolution 02-17. Hearing none, Mr. Buechel asked the committee for a motion to approve Resolution 02-17. Ms. Benson made a motion to amend the Transportation Improvement Program, Mr. Janke seconded the motion and the motion passed unanimously.

6. Discussion on Transportation Alternative Program funding

Ms. Carpenter noted the 2017 Transportation Alternatives Program (TAP) through WisDOT will be selecting projects through October of this year. TAP funds bicycle and pedestrian projects, Safe Routes To School projects, as well as funds to develop plans (i.e. develop bicycle/pedestrian planning documents for municipalities). She stated that TAP awards projects at 80/20; 80 percent federal and 20 percent local match. There is a four year commencement date for funding, which begins the date funds are awarded; all funds will be lost if a project does not start within this four year window. Ms. Carpenter asked the committee to contact her with any questions regarding TAP and to begin the process now with any candidate projects.

7. Discussion on Federal MPO Planning Legislation Update

Mr. Raith noted Congress recently repealed the MPO Consolidation Rule, which would have forced MPO’s in the same region to merge and consolidate all of their MPO planning responsibilities. For
example, all the MPO’s in east central Wisconsin (Fond du Lac, Oshkosh and Fox Cities) could have merged into one urbanized planning area. Mr. Raith noted this rule was mostly unpopular amongst the MPO’s.

8. Discussion on WisDOT regional projects for the Fond du Lac Area

Mr. Halada noted the only transportation project with WisDOT coordination is the roundabout project at Military Road and CTH VV (Pioneer Road). A brief construction project schedule was provided. The committee members expressed no major concerns thus far with the roundabout project. There was a general discussion about traffic signal replacements at Military Road and Interstate 41 interchange and at the Interstate 41 and USH 151 interchange.

Mr. Buechel also noted the County is meeting with local legislators on June 2 at UW-FDL to discuss the future of funding/expansion/status of the STH 23 expansion from Fond du Lac to Plymouth.

9. Transit Update

Mr. Musson noted since the Transit Development Plan (TDP) was completed for Fond du Lac Area Transit in 2016, staff has continued meeting with transit staff and members of the coalition this year. Staff agreed to set up an on-going coalition which meets on a quarterly basis. The coalition has met twice so far with the last meeting taking place on the bus. Members met with a rider to hear perspective on the new route changes and rode three routes. ECWRPC staff will be meeting with two transit riders later today to discuss a potential “Friends of Transit” advocacy group which would be led by transit riders.

10. Complete Streets Workshop – UW-Oshkosh (June 13th and 14th) and National Bike to School Day (May 10th recap)

Mr. Moesch noted ECWRPC was awarded a technical assistance grant from Smart Growth America to host a two day complete streets workshop on June 13-14. It will be held at the University of Wisconsin-Oshkosh Alumni Welcome Center. The event is free to attend with the exception of paying for lunch on the 14th. Register is available through ECWRPC’s website. Mr. Moesch also noted ECWRPC staff attended various bike to school events within the Fond du Lac School District on May 10th to promote National Bike to School Day.

11. Adjourn

Mr. Buechel asked if there was any other business. Hearing none, Ms. Benson made a motion to adjourn and Mr. Halada seconded the motion. The motion passed unanimously and the Committee adjourned at 10:57 A.M. The next meeting is on Wednesday, July 12, 2017 at 10:00 A.M. (Fond du Lac City/County Government Center-Rooms D-E).
SUMMARY OF PROCEEDINGS

1. Introductions, Statement of compliance with Wis. Stats. Ch. 19, Subchapter V, Sec. 19.84 regarding Open Meetings

Mr. Buechel welcomed the group and noted the meeting was properly posted and in compliance with open meeting requirements.

2. Public Comment (None)

3. Discussion and action on Summary of Proceedings from the July 12th Policy Board meeting

Mr. Buechel asked the committee if they had any comments or questions regarding the summary of proceedings. Hearing no comments, Mr. Buechel asked the committee for a motion to approve the summary of proceedings. Ms. Benson seconded the motion and the motion passed unanimously.

4. Discussion and action on Proposed Resolution 05-17: Amending the Transportation Improvement Program for the Fond du Lac Urbanized Area – 2017

Mr. Moesch noted WisDOT requested the MPO advance three transportation projects under the current Transportation Improvement Program. Two projects are to advance Section 5310 Federal Transit Administration funds: Operating Expenses ($47,000) and 2 diesel mini buses ($99,200) for Disability Services, Inc. A third project is to advance Surface Transportation Program funds ($162,000-federal and $40,000-state) for railroad crossing signals replacement as part of the USH 45 resurfacing project in 2018.

Mr. Buechel asked the committee if they had any comments or questions regarding proposed Resolution 05-17. Hearing none, Mr. Buechel asked the committee for a motion to amend the Transportation Improvement Program for the Fond du Lac Urbanized Area – 2017. Ms. Benson made...
a motion to amend the Transportation Improvement Program, Mr. Kolstad seconded the motion and the motion passed unanimously.

5. Discussion and action on Proposed Resolution 03-17: Approval of the Transportation Improvement Program for the Fond du Lac Urbanized Area – 2018

Mr. Moesch stated the Transportation Improvement Program for the Fond du Lac Urbanized Area – 2018 finished its 30 day public review on October 3rd, with no comments received. He noted all programmed projects for both road and transit remained unchanged from the draft document previously sent out. Fond du Lac County requested adding additional illustrative projects which are included in the appendix of the plan. There was a general discussion regarding the State Budget and transportation funds at the MPO level.

Mr. Buechel asked the committee if they had any comments or questions regarding proposed Resolution 03-17. Hearing none, Mr. Buechel asked the committee for a motion to approve the Transportation Improvement Program for the Fond du Lac Urbanized Area – 2018. Mr. Hornung made a motion to amend the Transportation Improvement Program, Mr. Kolstad seconded the motion and the motion passed unanimously.

6. Discussion and action on Proposed Resolution 04-17: Adoption of the 2018 Unified Transportation Work Program for the Fond du Lac Urbanized Area and Annual MPO Certification

Ms. Kraemer Badtke reviewed the 2018 Work Program with the committee. There was a slight increase in overall funding for the Fond du Lac Urbanized Area for 2018, approximately $600, which was folded into the overall work program elements.

Mr. Buechel asked the committee if they had any comments or questions regarding proposed Resolution 04-17. Hearing none, Mr. Buechel asked the committee for a motion to approve the 2018 Unified Transportation Work Program for the Fond du Lac Urbanized Area and Annual MPO Certification. Ms. Benson made a motion to amend the Transportation Improvement Program, Mr. Moore seconded the motion and the motion passed unanimously.

7. Discussion and action on Proposed Resolution 06-17: Adopting the Updated 2017 Title VI Non Discrimination Program Plan and Limited English Proficiency Program for the East Central WI Regional Planning Commission as a Sub-Recipient of the Wisconsin Department of Transportation

Ms. Biedermann noted that ECWRPC, as a sub-recipient of federal transportation funds, is required to submit a Non Discrimination Program Plan and Limited English Proficiency Program plan. This plan is updated every three years, assuring that no person on the grounds of race, color or national origin, be denied the benefits of ECWRPC programs. She noted the plan finished its 30 day public review with no comments received.

Mr. Buechel asked the committee if they had any comments or questions regarding proposed Resolution 06-17. Hearing none, Mr. Buechel asked the committee for a motion to approve the Title VI Non Discrimination Program Plan and Limited English Proficiency Program. Ms. Benson made a motion to amend the Transportation Improvement Program, Mr. Moore seconded the motion and the motion passed unanimously.

8. Discussion on Interactive TIP Map

Mr. Moesch noted staff updated its Interactive TIP map with all current transportation projects for the MPO. He encouraged the committee members to review it as another way to see the projects for the Fond du Lac MPO as well as for the Oshkosh and Fox Cities MPO’s.

9. Discussion on WisDOT regional projects for the Fond du Lac area
Mr. Halada noted WisDOT is in the early stages of preparing a limited scope supplemental environmental impact statement (LSSEIS) for the STH 23 road project from Fond du Lac to Plymouth. The LSSEIS will review certain aspects of an existing environmental impact statement, as recent federal litigation raised concerns with WisDOT traffic forecasting methodology. A public involvement meeting will be held at UW-Fond du Lac on October 12 from 5-7pm. Additionally, the Military Rd/Pioneer Rd roundabout construction should be complete by this November. Within the county, Mr. Halada noted the STH 44 resurfacing project will wrap up later this month and a STH 67 box culvert project will also be complete by this November.

Ms. Carpenter also noted the next Transportation Alternatives Program (TAP) funding cycle has started. She encouraged municipalities to contact her regarding any project ideas to get input.

10. Transit Update

Mr. Erickson noted staff has continued to meet with Fond du Lac Area Transit and a coalition of steering committee members on a quarterly basis. Their next meeting will be at Woodlands Senior Community on November 16th.

11. Adjournment

Mr. Buechel asked if there was any other business. Hearing none, Mr. Halada made a motion to adjourn and Mr. Kolstad seconded the motion. The motion passed unanimously and the Committee adjourned at 10:55 A.M. The next meeting is on Wednesday, November 8, 2017 at 10:00 A.M.
APPENDIX E

MPO RESOLUTION OF ADOPTION
RESOLUTION NO. 03-17

WHEREAS, the Fond du Lac area has been designated by the Governor as a Metropolitan Planning Organization (MPO) for the purpose of meeting federal requirements for cooperative, comprehensive and continuing urban transportation planning in the Fond du lac urbanized area; and

WHEREAS, all transportation projects in the Fond du lac urbanized area which are to be implemented with federal funds must be included in the annual elements of the Transportation Improvement Program (TIP) and approved by the MPO as a prerequisite for funding approval; and

WHEREAS, a completed and approved TIP is also a prerequisite for continued transportation planning certification, and

WHEREAS, the Policy Board affirms the validity of the transportation plan for the urbanized areas; and

WHEREAS, MPO staff has worked with principal elected officials of general purpose local governments, their designated staffs, and private providers to solicit their input into this TIP; and

WHEREAS, in accordance with the Fixing America’s Surface Transportation Act (FAST Act), coordination has occurred between the MPO, the state and transit operators in programming multimodal projects; and

WHEREAS, all required public participation procedures have been followed; now therefore

BE IT RESOLVED BY THE FOND DU LAC METROPOLITAN PLANNING ORGANIZATION:

Section 1: That the Policy Board, as the designated MPO, adopt the Transportation Improvement Program for the Fond du Lac Urbanized Area - 2018.

Section 2: That the Policy Board certifies that the metropolitan planning process is addressing the major transportation issues in these areas in conformance with all applicable requirements.

Section 3: That the Policy Board further certifies that the TIP contains projects that are consistent with the metropolitan plans for the urbanized area.
PROPOSED RESOLUTION NO. 03-17

Effective Date: October 4, 2017
Submitted By: MPO Staff
Prepared By: David J. Moesch, Associate Transportation Planner

Notice of Opportunity to Review Metropolitan Planning Organization 2018 Transportation Improvement Program

The Fond du Lac Metropolitan Planning Organization (MPO) has prepared a draft Transportation Improvement Program (TIP) for the Fond du Lac Urbanized Area - 2018. This publication of the TIP serves to update the listing of state and federalally funded, in addition to significant local transportation projects for the years 2018-2021. The Fond du Lac MPO’s Public participation satisfies the Fond du Lac Area Transit public participation requirements for the Program of Projects. The draft Transportation Improvement Program (TIP) for the Fond du Lac Urbanized Area - 2018 can be viewed on the internet at http://www.wicorp.org/programs/fond-du-lac-mpo/transportation-improvement-program.

A 30-day public review and comment period for this document will commence on Sunday, September 3, and end on Monday, October 2, 2017. Please contact East Central Wisconsin Regional Planning Commission at (920)551-4770 for more information or a copy, and forward any comments to the Commission at 400 Alfalfa Street, Suite 100, Menasha, WI 54952.1.100.

East Central WI Planning Comm
Re: 2018 Transportation Improvement
APPENDIX G
TITLE VI & ENVIRONMENTAL JUSTICE
TITLE VI AND ENVIRONMENTAL JUSTICE

Environmental justice is a process which seeks to ensure that access to transportation systems and the transportation planning process is available to all, regardless of race or socioeconomic status. The decision making process depends upon understanding and properly addressing the unique needs of different socio-economic groups. In terms of race, the Fond du Lac Urbanized Area has a substantially low minority population which is fairly scattered.

Efforts were made to include all individuals within the TIP planning process. There are three fundamental environmental justice principles that were considered in developing this TIP.

- To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority populations and low-income populations.
- To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process.
- To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.

Environmental justice is more than a set of legal and regulatory obligations. Properly implemented, environmental justice principles and procedures improve all levels of transportation decision making. This approach will:

- Make better transportation decisions that meet the needs of all people.
- Design transportation facilities that fit more harmoniously into communities.
- Enhance the public-involvement process, strengthen community-based partnerships, and provide minority and low-income populations with opportunities to learn about and improve the quality and usefulness of transportation in their lives.
- Improve data collection, monitoring, and analysis tools that assess the needs of, and analyze the potential impacts on minority and low-income populations.
- Partner with other public and private programs to leverage transportation-agency resources to achieve a common vision for communities.
- Avoid disproportionately high and adverse impacts on minority and low-income populations.
- Minimize and/ or mitigate unavoidable impacts by identifying concerns early in the planning phase and providing offsetting initiatives and enhancement measures to benefit affected communities and neighborhoods.

In analyzing the Fond du Lac area’s transportation system, it is unrealistic to think that any project will not have some type of adverse impact on someone. The goal is not just to move traffic efficiently and safely, but to do so without causing other physical, environmental or societal problems. This is especially important in identified Low-income and Minority areas. It is common knowledge that adverse impacts from transportation improvements will happen, but every effort to identify the impacts, minimize the impacts, and mitigate the damages from these projects will be considered. Transportation improvements also
provide positive aspects to the community, such as providing access to regional networks and transit.

The Fond du Lac MPO utilizes a number of tools to identify and consider minority and low income populations throughout the planning process. These tools include U.S Census data, public outreach and GIS analysis. The MPO utilizes U.S. Census data to identify and track the growth of minority and low income populations. The data can be represented either in a table or on a map. Mapping the data allows the ability to identify clusters of minority and low income populations. U.S. Census data can be broken down to either the census tract or block level. GIS analysis is used to identify minority and low income populations geographically and overlay modes of transportation (transit, rail, bicycle and pedestrian) to ensure they are not adversely affected by projects, plans or programs.

Public participation efforts within the planning process to include minority groups have included notification to local minority organizations and agencies and disclaimers on public documents in Hmong and Spanish (the primary languages spoken by non-English speaking residents of the Urbanized Area) for further information and contacts. Advertisements were published in the local newspaper (The Fond du Lac Reporter) prior to the public review period. All meeting locations were selected to include easy access for all individuals, especially transit and alternative mode users, as well as facilities which catered to the mobility needs of the disabled. Various planning documents, including the draft of this TIP were open to public comment. Public participation throughout the process is characterized as consistent.

The following maps identify the areas of concentration of populations protected under environmental justice provisions of Title VI, in relation to the projects programmed in the Transportation Improvement Program for the Fond du Lac Urbanized Area – 2018.

The Title VI Non-Discrimination Plan and population data for the East Central Region and MPO areas can be viewed at the following website:

http://www.ecwrpc.org/about-ecwrpc/title-vi/

Map G-1 illustrates the relationship of projects to the distribution of population in poverty, which is determined by household income and family size. U.S. Census calculates a person's poverty status by comparing a person's total family income in the last 12 months with the poverty threshold appropriate for that person's family size and composition. Poverty thresholds are determined by multiplying the 1982 poverty threshold (Poverty Thresholds in 1982, by Size of Family and Number of Related Children Under 18 Years Old (Dollars)) by the inflation factor. Also included, are the transit fixed routes with a ¼ mile buffer. Inclusion of transit fixed routes and 2018 TIP projects allow the MPO to determine the potential for disproportionately high adverse impacts to this population.

Map G-2 depicts 2015 households making less than $25,000 (Low-income) for the area. In addition to the MPO boundaries, there are 2018 TIP projects and transit fixed routes with a ¼ mile buffer. Inclusion of transit fixed routes and 2018 TIP projects allows the MPO to determine the potential for disproportionately high adverse impacts to individuals classified as in poverty or making less than $25,000 per household. Further analysis of the TIP projects in relation to individuals classified as in poverty or making less than $25,000 per household do not propose a disproportionately high adverse impact compared to the general population.
Map G-3 depicts 2015 households making more than $100,000 for the area. Further analysis of the TIP projects in relation to households making more than $100,000 per household do not propose a disproportionately high adverse impact compared to the general population. Typically, households in this class have more resources in their ability to access all modes of transportation.

Minority populations make up a fairly small percentage of the population within the Fond du Lac area. 5.9 percent of the population of Fond du Lac County consider themselves to be a minority population. Map G-4 illustrates the 2015 distribution of white and minority population by U.S. Census block group for MPO area. Further analysis of the TIP projects in relation to the minority population do not propose a disproportionately high adverse impact compared to the general population.

Persons of Hispanic Ethnicity make up 4.3 percent of the total population of Fond du Lac County. Map G-5 illustrates the 2015 distribution of Hispanic or Latino population by U.S. Census tract for MPO area. Inclusion of transit fixed routes and 2018 TIP projects allow the MPO to determine the potential for disproportionately high adverse impacts to the Hispanic or Latino population. Further analysis of the TIP projects in relation to the Hispanic or Latino population do not propose a disproportionately high adverse impact compared to the general population.

Map G-6 depicts 2015 households that speak English less than very well or with limited English proficiency. The language spoken at home by census tract is included with transit fixed routes and 2018 TIP projects. Further analysis of the TIP projects in relation to these households do not propose a disproportionately high adverse impact compared to the general population.

Map G-7 depicts 2012 distribution of households with no car in the Fond du Lac MPO area by census tract. This analysis is included with transit fixed routes and 2018 TIP projects. Further analysis of the TIP projects in relation to these households do not propose a disproportionately high adverse impact compared to the general population. The majority of these households are served by fixed transit or other modes of transportation in the area.

Map G-8 depicts 2012 distribution of households with at least one car in the Fond du Lac MPO area by census tract. This analysis is included with transit fixed routes and 2018 TIP projects. Further analysis of the TIP projects in relation to these households do not propose a disproportionately high adverse impact compared to the general population.

It appears that none of the programmed projects disproportionately affect any certain population concentration in the Fond du Lac urbanized area. Also, the concentration of populations near the city center, allows for optimal access to a number of modes, including the radial route design of urban transit systems, urban bicycle and pedestrian routes, and well-developed and maintained local street and highway systems.

FUNCTIONAL CLASSIFICATION SYSTEM AND STP-URBAN ELIGIBLE ROADWAYS

The following map identifies the urbanized area functional classification system and the roadways that are eligible for STP-Urban funding in the Fond du Lac urbanized area. Projects must meet federal and state requirements. Counties, towns, cities, villages and certain public authorities located within the urbanized area are eligible for funding on roads functionally classified as higher than “local”.

Federal funding is provided for a wide range of transportation-related activities, including projects on higher function local roads not on the State Trunk Highway system, and local safety improvements. The program is funded through the federal Fixing America’s Surface Transportation Act (FAST Act).

Map H - 1 shows the Fond du Lac urbanized area.
