

Board of Commissioners
East Central Wisconsin Regional Planning Commission
Menasha, Wisconsin

We have audited the financial statements of the East Central Wisconsin Regional Planning Commission as of and for the year ended December 31, 2022, and have issued our report thereon dated REPORT DATE. We have previously communicated to you information about our responsibilities under auditing standards generally accepted in the United States of America, *Government Auditing Standards*, Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the *State Single Audit Guidelines*, issued by the Wisconsin Department of Administration, as well as certain information related to the planned scope and timing of our audit in our engagement letter dated January 9, 2023. Professional standards also require that we communicate to you the following information related to our audit.

Significant audit findings or issues

Qualitative aspects of accounting practices

Accounting policies

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by East Central Wisconsin Regional Planning Commission are described in Note 1 to the financial statements.

As described in Note 1.H, the entity changed accounting policies related to leases by adopting Statement of Governmental Accounting Standards Board (GASB Statement) No. 87, Leases, effective January 1, 2022. Accordingly, the accounting change has been applied to the beginning of the period of adoption.

We noted no transactions entered into by the entity during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- Management's estimate of the other postemployment benefits is based on an actuarial report. We evaluated the key factors and assumptions used to develop the other postemployment benefits in determining that it is reasonable in relation to the financial statements taken as a whole.

- Management's estimate of the depreciable life of the capital assets is based upon analysis of the expected useful life of the capital assets. We evaluated the key factors and assumptions and the consistency in these factors and assumptions used to develop the depreciable life in determining that it is reasonable in relation to the financial statements taken as a whole.
- Management's estimate of the net pension liability (asset) and related deferred outflows/inflows of resources is based on information received from the Wisconsin Retirement System. We evaluated the key factors and assumptions used to develop the net pension liability (asset) and related deferred outflows/inflows of resources in determining that they are reasonable in relation to the financial statements taken as a whole.

Financial statement disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There were no particularly sensitive financial statement disclosures.

The financial statement disclosures are neutral, consistent, and clear.

Significant unusual transactions

We identified no significant unusual transactions.

Difficulties encountered in performing the audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Uncorrected misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management did not identify and we did not notify them of any uncorrected financial statement misstatements.

Corrected misstatements

Management did not identify and we did not notify them of any financial statement misstatements detected as a result of audit procedures.

Disagreements with management

For purposes of this communication, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. No such disagreements arose during our audit.

Circumstances that affect the form and content of the auditors' report

As previously communicated to you, the report was modified to include an emphasis of matter paragraph to highlight the change in accounting principle related to the adoption of the new accounting guidance for leases as follows:

Change in Accounting Principle

As discussed in Note 1.H. to the financial statements, effective January 1, 2022, the Commission adopted new accounting guidance for leases. The guidance requires lessees to recognize a right-to-use lease asset and corresponding lease liability for all leases with lease terms greater than twelve months. Our opinion is not modified with respect to this matter.

Management representations

We have requested certain representations from management that are included in the attached management representation letter dated REPORT DATE.

Management consultations with other independent accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the entity's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Significant issues discussed with management prior to engagement

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to engagement as the entity's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our engagement.

Required supplementary information

With respect to the required supplementary information (RSI) accompanying the financial statements, we made certain inquiries of management about the methods of preparing the RSI, including whether the RSI has been measured and presented in accordance with prescribed guidelines, whether the methods of measurement and preparation have been changed from the prior period and the reasons for any such changes, and whether there were any significant assumptions or interpretations underlying the measurement or presentation of the RSI. We compared the RSI for consistency with management's responses to the foregoing inquiries, the basic financial statements, and other knowledge obtained during the audit of the basic financial statements. Because these limited procedures do not provide sufficient evidence, we did not express an opinion or provide any assurance on the RSI.

Supplementary information in relation to the financial statements as a whole

With respect to the schedules of expenditures of federal and state awards (SEFA and SESA) accompanying the financial statements, on which we were engaged to report in relation to the financial statements as a whole, we made certain inquiries of management and evaluated the form, content, and methods of preparing the SEFA and SESA to determine that the SEFA and SESA comply with the requirements of the Uniform Guidance and the State Single Audit Guidelines, the method of preparing them have not changed from the prior period or the reasons for such changes, and the SEFA and SESA are appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the SEFA and SESA to the underlying accounting records used to prepare the financial statements or to the financial statements themselves. We have issued our report thereon dated REPORT DATE.

With respect to the Schedule of Revenues, Expenses and Changes in Net Position – Budget and Actual (collectively, the supplementary information) accompanying the financial statements, on which we were engaged to report in relation to the financial statements as a whole, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period or the reasons for such changes, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves. We have issued our report thereon dated REPORT DATE.

Other information included in annual reports

Other information (financial or nonfinancial information other than the financial statements and our auditors' report thereon) is being included in your annual report and is comprised of the statement of net position and statement of revenues, expenses, and changes in net position. Our responsibility for other information included in your annual report does not extend beyond the financial information identified in our opinion on the financial statements. We have no responsibility for determining whether such other information is properly stated and do not have an obligation to perform any procedures to corroborate other information contained in your annual report. We are required by professional standards to read the other information included in your annual report and consider whether a material inconsistency exists between the other information and the financial statements because the credibility of the financial statements and our auditors' report thereon may be undermined by material inconsistencies between the audited financial statements and other information. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report. We did not identify any material inconsistencies between the other information and the audited financial statements.
