Federal transit law, as amended by Bipartisan Infrastructure Law (BIL) (2021), requires that projects selected for funding under the Section 53.10 (Enhanced Mobility of Seniors and Individuals with Disabilities Program) be "included in a locally developed, coordinated public transit-human services transportation plan" and that the plan be "developed and approved through a process that includes participation by seniors, individuals with disabilities, representatives of public, private, and nonprofit transportation and human services providers and other members of the public." This planning document fulfills those requirements.

## **PURPOSE**

## Legislation

The Bipartisan Infrastructure Law (BIL) was signed into law on November 15, 2021 and supersedes the Fixing America's Surface Transportation (FAST) Act. The BIL and predecessor transportation legislation require that all urbanized areas have a comprehensive, cooperative, and continuing planning process in place to guide effective use of federal funding assistance. BIL planning requirements reemphasize the integral relationship of land use with transportation infrastructure, as well as the need to address all mobility from a multimodal perspective. Additional areas of challenge under BIL include:

- Improving mobility on America's highways;
- · Creating jobs and promoting economic growth; and
- Accelerating project delivery and promoting innovation.

To carry out the comprehensive planning program, legislation has reconfirmed the role of a cooperative planning institution, the RPC/MPO, to guarantee that all aspects of the urbanized area will be represented in the plan's development and that planning will be conducted on a continuing basis. As the designated planning institution for Outagamie County, the East Central Wisconsin Regional Planning Commission is responsible for carrying out these transportation planning responsibilities.

The Federal Transit Administration (FTA) established the Section 53.10 program to assist elderly and disabled persons with transportation needs. FTA, on behalf of the Secretary of Transportation, distributes the funds appropriated annually to the states based on an administrative formula that considers the number of elderly individuals and individuals with disabilities in each state. Title 49 U.S.C. 5310(a)(1) authorizes funding for public transportation capital projects planned, designed and carried out to meet the special needs of elderly individuals and individuals with disabilities.

The FTA requires specialized transportation projects funded under Section 53.10 be included in a "locally developed coordinated public transit-human services transportation plan" to ensure that applicants are coordinating services with other private, public and non-profit transportation providers. The Wisconsin Department of Transportation (WisDOT) concurs, as "projects funded with 85.21 aids should be held to the same standard, and consequently requires counties to demonstrate how project(s) meet a goal/strategy outlined in the most recent coordinated transportation plan." WisDOT additionally requires that administrators participate in the ongoing development and review of these local coordination plans, and transportation coordination is addressed in public hearings held as part of the 85.21 grant application development process.<sup>1</sup>

## **PLANNING PROCESS**

## **County Coordination Plan**

A County Human Services-Public Transportation Coordinated Plan is a five-year plan dedicated to sharing resources both intra and inter county to assist the transportation disadvantaged public in getting rides based on their individual mobility needs. Broad and encompassing strategies and actions are developed to enhance the mobility needs of the elderly and disabled for the life of the plan.

## **Required Elements**

According to Federal Transit Administration (FTA) rules, a county human service-public transportation coordinated plan must include the following four elements:

- 1. An assessment of available services that identifies current transportation providers (e.g., public, private and nonprofit);
- 2. An assessment of the transportation needs for individuals with disabilities and older adults. The assessment can be based on the experiences and perceptions of the planning partners or on more sophisticated data collection efforts and gaps in service;
- Strategies, activities and/or projects to address the identified gaps between current services and needs, as well as opportunities to improve efficiencies in service delivery; and
- 4. Priorities for implementation based on resources (from multiple program sources), time, and feasibility for implementing specific strategies and/or activities identified

#### **Timeline**

ECWRPC will submit the final County Coordination Plan to WisDOT no later than November 15, 2023. The plan will go into effect for the five-year period from 2024 to 2028.

#### Plan Implementation & Keeper of the Plan

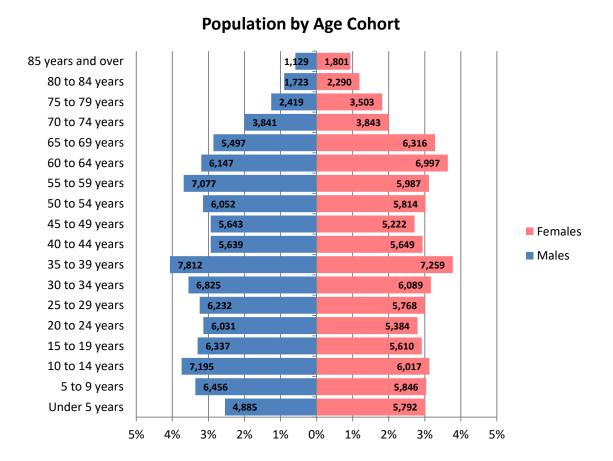

The County Coordination Plan will be implemented by the designated keeper of the document:

## **DEMOGRAPHIC PROFILE**

## Population by Age

**Figure 1** visualizes the population of Outagamie County from the U.S. Census Bureau, 2017 – 2021 American Community Survey 5-Year Estimates. The total population is 192,127 individuals. Population numbers are separated by age cohort and gender.

## **Disability Characteristics**

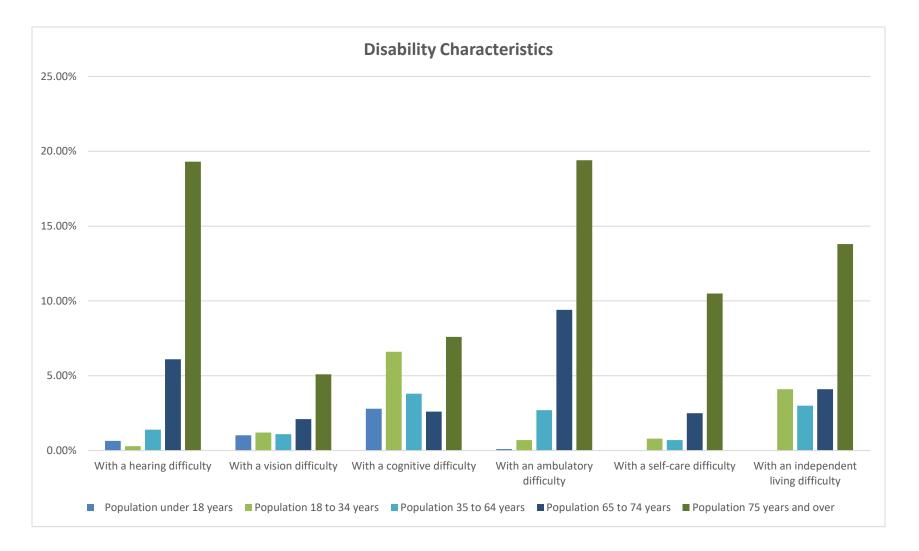

**Table 1, Table 2,** and **Figure 2** represent the population of Outagamie County with a disability. **Table 1** breaks down the portion of the total population with a disability by age and type of disability; **Figure 2** graphically represents the same data. **Table 2** further numerates disabilities by type and provides the total number of individuals with each disability. Approximately 18,350 persons (9.60%) in Outagamie County have a disability.

#### **Assessment of Needs**

Based on the data previously illustrated and discussions with community members, the main focal points of disability services in Outagamie County need to serve those in the age 75 and over group and focus on expansion of access to services. The types of disabilities vary, but movement-restricting ambulatory and independent living difficulties make up the main percentage. Strategies for implementation are explored in the Action Plan (**Table 7**).

## **Income & Poverty**

Income and Poverty statistics for Outagamie County shows 13,651 residents (7.2%) below the poverty line. Refer to **Table 3**. **Figure 3** illustrates the household income, indicating the number of households in each income bracket. The median household income is \$97,155.

## **U.S. Census Bureau Poverty Threshold**

Following the Office of Management and Budget's (OMB) Statistical Policy Directive 14, the Census Bureau uses a set of money income thresholds that vary by family size and composition to determine who is in poverty. If a family's total income is less than the family's threshold, then that family and every individual in it is considered in poverty. The official poverty thresholds are updated for inflation using the Consumer Price Index (CPI-U),

and do not vary geographically. The official poverty definition uses money income before taxes and does not include capital gains or noncash benefits (such as public housing, Medicaid, and food stamps).<sup>2</sup> **Table 4** illustrates that data.

## **PARTICIPATION SOLICITATION**

#### **Outreach Efforts**

Public participation throughout the planning process was solicited through a variety of means including surveys, flyers, invitation emails, newsletter articles, newspaper announcements, and personal calls. Survey and public meeting announcements were also shared online through website postings and via social media outlets. Evidence of the various ways public participation was solicited are located in **Appendix A**.

## **Survey Data**

A survey was designed and distributed to Outagamie County residents to learn trends and preferences among both those who use specialized coordinated transportation and those who do not. The survey received 83 responses and aimed to gather information from all areas of the county, evidenced by the collected responses by zip code presented in **Table 6**. Survey Data has been summarized and visualized in **Appendix B**; responses to open prompts (short answer) were incorporated into meeting discussions. The survey was split between users of specialized coordinated transportation (Questions 2-15) and non-users (Questions 16-27).

# PUBLIC FACILITATION – ASSESSMENT, STRATEGIES, RESPONSIBILITY AND PRIORITIZATION

#### **Process and Methods**

49 U.S.C. 53.10 and Wis. Stat. 85.21 place emphasis on "locally-developed" coordinated public transit-human services transportation planning; this specialized transportation coordination plan focuses on incorporating significant public contribution. Public input meetings integrated informational presentation and public participation.

The public participation meeting followed the process outlined below. Meeting evaluations were distributed at the conclusion and are included in **Appendix B**.

- **Setting:** A cohesive, communicative environment was created by arranging seating in the round to encourage inter-group discussion.
- **Presentation and Information:** Slides and information were presented to the group, illustrating the results of the survey and processes, goals, and objectives from previous iterations of the coordinated plan.
- **Group Discussion:** Conversations and group input determined actions the previous plan executed well, areas for improvement, and general goals, needs, and concerns raised by different organizations and community members.
- **Questions:** Questions were welcomed at all points during the meeting to ensure a clear exchange of information, communication, and sharing of new ideas/concerns.
- **Goal Refinement and Creation:** Goals from the previous plan were analyzed; ones that had been accomplished were removed, unaccomplished goals were modified and updated, and new goals were created.
- **Identification of Priorities:** Attendees ranked the goals to determine priority for implementation. Members were also asked to complete a meeting evaluation.

## Identified Gaps, Opportunities, and Positives

The following list was developed after group discussion regarding the current state of specialized transportation services. Gaps and Opportunities for improvement are listed in **Red**, followed by Positives from the previous plan and other policies in **Blue**.

**Employment-Related Transportation:** Transportation services for employment to jobs and job centers is lacking.

Rural/Urban Services: Outagamie County features a large mix of both rural and urban Rural areas have limited service options and accessibilities compared to urbanized areas.

**Multi-Lingual Services:** The number of non-English speaking residents in Outagamie County is continuously rising, complicating route and fare comprehension causing a gap in understanding for both riders and drivers

**Technical Difficulties:** The Valley Transit app company recently went out of service. A new app could improve the fare system and live location bus tracking.

**Driver & Vehicle Demands:** Service gaps exists from a lack of drivers and/or accessible vehicles. Driver may have multiple responsibilities, and insurance coverage is a problem.

Cross County Services: The collaboration with Calumet and Winnebago Counties has been less than ideal, limiting services in all parts of the Fox Cities.

Weekend and Evening Services: Service on weekends and evenings are limited, making it difficult for riders to get to social events and weekend shifts.

**Demand for Locations:** Demand for new stops and shelters has increased, demand has not kept up.

Maintaining Service Throughout the Pandemic: Despite low ridership in 2020 and 2021, routes were continuously maintained, and ridership is up.

Outreach, Advocacy, and Education: Education for riders and drivers regarding routes, services, and fares.

Valley Transit Travel Training Specialist and Mobility Manager: Both Travel Trainer and Mobility Manager positions have continued to work with the public to educate about and coordinate rides.

#### **Action Plan**

An action plan is a detailed plan illustrating the steps that should be taken, or activities that should be performed for the vision to be achieved. Within this action plan are sub actions denoted by a number and the corresponding action, responsible department/entity, deliverables/outcomes and priority for completion. The following figure illustrates the actions/recommendations for this coordination plan.

**Table 7: Action Plan** 

	Goals	Activities	Roadblocks	Responsible	Timeline
1	Increase ridership by promoting educational efforts (reduce language barriers, improve marketing efforts, route knowledge, etc.)	Develop periodic informational sessions/training sessions to promote available services; organize and facilitate a "Transportation Plunge" event(s) to encourage/educate customers on available transportation programs and services	Funding, dedicated staffing efforts	Valley Transit	
2	Improve bicycle & pedestrian infrastructure county-wide	Collaborate with planning/public works departments with municipalities to encourage greater regional efforts	Funding; departmental coordination & collaboration	Planning Committee	
3	Identify new transportation champions to increase transportation education to State Legislators	Gather customer's stories/examples on personal transportation experiences; develop a central database/clearinghouse of customer experiences	Funding, dedicated staffing efforts	Planning Committee	
4	Continue research and invest in technology	Develop a departmental technology plan for Valley Transit	Funding	Planning Committee	
5	Expand mobility programs in coordination with Outagamie County	Provide additional funds to increase mobility management services	Funding, dedicated staffing efforts	Planning Committee	
6	Expand rural transportation routes (with a provider) to improve accessibility to new subdivisions and housing developments	Concentrated effort to find transportation gaps and needs for rural portions of Outagamie County	Funding; unknown customer demand; dedicated staffing efforts	Planning Committee	
7	Work to expand affordable and convenient (7 day/week) transportation services beyond Appleton Urbanized Area	Coordinate efforts with Regional I-41 commuter feasibility study; coordinate transportation efforts with Valley Transit and Oshkosh (GO Transit)	Funding, federal funding restrictions, staffing availability	Planning Committee	

	Establish a Regional Transit Authority (RTA) for the Fox Cities through a brokerage system	Advocate to state legislators for enabling legislation/ability to bring to local referendums for municipalities to consider	Political will; funding mechanisms and municipal referendums; geography	Planning Committee

## PLAN ADOPTION & AMENDMENT PROCEDURE

#### **Coordination Committee**

The Coordination Plan Keeper (noted above in the Planning Process section) will work with relevant county committees to monitor and implement the County Coordination Plan for the duration of this plan (2024 - 2028).

## Plan Approval

The Coordination Plan is formally adopted when the following criterion is met:

 The East Central Wisconsin Regional Planning Commission resolution to formally approve the Outagamie County Specialized Transportation Coordinated Plan for the five-year duration. The resolution can be found in **Appendix D**.

## **Amendment Procedure**

- 1. A narrative summary describing the reason for the coordination plan amendment and the process used is created;
- 2. Notify the county 'Keeper of the Plan', who then informs ECWRPC of proposed change(s) to the document;
- 3. Submit amendments to the County's transportation coordination committee (or similar group) for approval;
- 4. ECWRPC will notify WisDOT of the change(s) and send the revised document.

Figure 4: Email Notification

Good Afternoon Specialized Transportation Committee,

As introduced in the last meeting, Outagamie County and East Central Wisconsin Regional Planning Commission are seeking input for the next 2024-2028 Specialized Transportation Coordinated Plan. We are hoping that you can assist us by getting a survey out to your riders so we can get their input. The feedback will inform the development of transportation plans that prioritize the needs of individuals with disabilities, older adults, and others who require specialized support. I have attached the survey, or they can go to this link and complete the survey on-line. <a href="https://www.surveymonkey.com/r/transportationoutagamie">https://www.surveymonkey.com/r/transportationoutagamie</a> If individuals complete the paper copy, please collect and I will arrange to get those from you. I also wanted to invite you and your riders to a community meeting on September 12th at the ADRC from 1PM to 3PM. We will gain public input on transportation in Outagamie County. We are hoping to identify transportation gaps and develop solutions that help get individuals where they need to go. I have included a flyer on this meeting for you to distribute.

Thank you for your continued partnership. I look forward to some surveys coming in and seeing you September 12<sup>th</sup>. Have a great day!

1	Like having senior transportation as another option, especially for doctor's appointments	9/25/2023 8:33 AM
2	More information on what services are available. Veyo is great service but provided for medical only. When taking the bus I need to leave 2 hours early to make it on time. Also at times winter is unsafe and not always understanding with my special needs	9/13/2023 1:00 PM
3	Extend bus routes	9/13/2023 8:56 AM
4	Cabs are helpful, but return trips are inconvenient	9/13/2023 8:53 AM
5	They are good	9/13/2023 8:50 AM
6	need more	9/13/2023 8:46 AM
7	Scheduled pick up times are computerized and not based on where I'm going/ distance 45-60 min before appointment times	9/13/2023 8:43 AM
8	I hope I can get it when I need it. Causes me lots of anxiety trying to get a ride. I would think there would be more services available to help handicap people. Most of us cannot afford it	9/13/2023 8:40 AM

32	Better consistency with drop off and pick up times.	8/17/2023 8:43 AM
33	I think our transit system needs to be revamped to include areas that are not being served, ie: Prospect and Bluemound, Capital. I also recognize that having overlapping routes is beneficial and yet doesn't include areas that could use service. I also think that all bussing heading to the mall does not serve the public well. The public doesn't want to sit at the mall for the driver to have a break. I also think that having hourly times are not beneficial to our community. I see this with the high school kids who are sitting at the bus stop for over a half hour from when school lets out on week days.	8/17/2023 8:24 AM
34	less of a wait time, consistent availability, rural options, option to attend programming in Brown County due to lack of recourses in Outagamie County	8/17/2023 8:20 AM
35	There isn't much information readily available about what services are out there. I really only know about the bus and even THAT I'm not sure how the system works.	8/16/2023 10:56 AM

4	Many communities have found a way to have more consistent, frequent, and free public transportation. Valley Transit costs \$11 million per year to run. Fares generate less than 10% of this. Removing fares would increase ridership and provide greater value for the investment taxpayers will make anyway.	9/2/2023 1:44 AM

8	There is not reliable low cost transport services for seniors in Hortonville to get to Appleton, Neenah or New London. I personally drive a few seniors on my time and money.	8/19/2023 10:47 AM
9	It would be nice to see the high school kids picked up after school in a more timely manner, not 45 minutes after school lets out. It would be great to see the middle school children not be sitting on the bus for long periods of time and maybe splitting up some of the routes so the kids are spending less time on the bus and get home sooner. Ive noticed that there are certain areas that have to walk/bike a mile or more to get to the nearest bus line, which doesn't help people in these marginalized areas. I think hour routes doesn't help the community when that could mean that parents would have to leave their home over an hour before work starts just to make sure they make their bus.	8/17/2023 8:24 AM
10	I did not know I could use transportation services for social events or to visit my family.	8/15/2023 5:18 PM

APPENDIX D

#### **RESOLUTION NO. 51-23**

### APPROVING THE OUTAGAMIE COUNTY SPECIALIZED TRANSPORTATION COORDINATED PLAN 2024-2028

WHEREAS, people with specialized transportation needs have the right to mobility. Individuals with limited incomes and people with disabilities rely heavily, sometimes exclusively, on public and specialized transportation services to live independent and fulfilling lives. These services are essential for travel to work and medical appointments, to run essential errands, or to simply take advantage of social or cultural opportunities, and;

WHEREAS, under the Bipartisan Infrastructure Law (BIL), projects funded by the Federal Transit Administration (FTA) Section 5310 Enhanced Mobility for Seniors and Individuals with Disabilities program must be included in a "locally developed, coordinated public transit-human services transportation plan" to ensure that applicants are coordinated services with other private, public, and non-profit transportation provider, and;

WHEREAS, the Wisconsin Department of Transportation (WisDOT) concurs, as "projects funded with 85.21 aids should be held to the same standard, and consequently requires counties to demonstrate how project(s) meet a goal/strategy outlined in the most recent coordinated transportation plan", and;

WHEREAS, the development of coordination plans is led by the Regional Planning Commissions in Wisconsin to assist counties in facilitating public outreach and development of each coordination plan through a community meeting that included participation by seniors, individuals with disabilities, representatives of public, private, and nonprofit transportation and human services providers and other members of the public and met on September 12, 2023 and:

WHEREAS, East Central Wisconsin Regional Planning Commission staff in partnership with Outagamie County completed a planning process that engages the public, includes an assessment of available transportation services and providers, an assessment of transportation needs and gaps, identifies priorities based on resources, time, and feasibility, and identifies strategies and activities to address the identified gaps between current services and needed services.

### NOW THEREFORE, BE IT RESOLVED BY THE EAST CENTRAL WISCONSIN REGIONAL PLANNING COMMISSION

**Section 1:** Adopts in its entirety, the Outagamie County Specialized Transportation Coordinated Plan 2024 – 2028.

Section 2: That this resolution takes effect immediately upon its adoption.
